

Use our “Money Manager for Kids” to count your pocket money and expenses, and collect money for your purchases.

At the top of the table, in the lilac cells, write your name and your desired purchases and their costs, for which you will collect money.

MY NAME

MY GOAL No 1
MY GOAL No 2

Instead of writing “MY GOAL No 1”, write your goal (for example, “Bicycle” or “Trip to Disneyland”).

On the green table, write down all the cases you receive your own money.

At the bottom of both tables, you will see the totals:

SUM	+ \$46.00	+ \$68.00	+ \$120.00	+ \$234.00	- \$99.00	+ \$39.00	+ \$62.00	+ \$54.00	+ \$135.00
-----	-----------	-----------	------------	------------	-----------	-----------	-----------	-----------	------------

In the green table, the sums by columns (money received). In the blue table, the total amounts by columns (spent with a minus sign and saved with a plus sign).

The diagrams show how close you are to buying your desired goals (how much you have collected for each, how much more you need to collect).
